## PROFILE

Experienced Backend Engineer with 5+ years building scalable Python and Django web services deployed on AWS. Hands-on with Docker, Git, and Redis. Proven track record of delivering high-availability backend systems.

## TECHNICAL SKILLS

Python, Django, Docker, Git, AWS, Redis

## EXPERIENCE

### Senior Backend Engineer

DataStream Technologies, Bengaluru

May 2023 - Present

- Architect scalable web services with Python and Django serving 2M+ daily requests
- Deploy Docker containers to AWS (EC2, ECS) with automated Git-based workflows
- Configure Redis caching strategies improving API throughput by 40%
- Provision and monitor AWS cloud infrastructure for production workloads

### Backend Engineer

CloudBase Systems, Pune

Jun 2020 - Apr 2023

- Built backend services using Python and Django for a SaaS product suite
- Implemented Redis caching layer, reducing average response time by 30%
- Containerised services with Docker and deployed to AWS environments
- Established Git branching conventions and peer code review practices

## EDUCATION

Bachelor of Technology in Computer Science

Indian Institute of Technology Delhi

2016 - 2020

## CERTIFICATIONS

AWS Certified Developer - Associate (2022)

Docker Certified Associate (2023)
